THE TOURIST CROP

One of Virginia's biggest crops, the tourist crop, is coming up.

In a few weeks our highways will be crowded with thousands of cars from other states and while seeing our historic shrines these guests will spend many thousands of dollars in the state.

We welcome this annual trek of visitors, and we urge that plans be made to show them traditional Virginia hospitality.

MR. DOWNES' AUDITS

Mr. McCarthy Downes and the pap ers have the treasurers scared. This is county election year, and what treasurer wants at this of all times to have the state auditor go to the press with a story of any errors or mistakes in the handling of county funds. Most of the treasurers will be reelected, but on the whole they are an efficient lot, but they will leave a sigh of relief if Mr. Downes posts no visits until after August. Incidentally the editor's former home co[illegible] Accomack is the latest to mak[illegible] the headlines from Dr. Downes' audice.

THE RELIEF BILL

We do not know the nature of the lobbying pressure bringing about the 42 to 43 vote on the McCarrop amendment to the big four billion relief bill in the senate, but do know that this time the administration was right and the insurgents were wrong.

The issue at stake was the wage scale of workers given relief jobs. The administration wanted a substantial wage so that the fund took care as large a number as possible from the army of suffering unemployed. The McCarron amendment demanded high wages for those getting work relief.

The McCarron amendment won, so the future of the relief bill is in doubt.

It seems to us that continued depression would help the political future of the ilk of senator Long and the Townsend-Coughlin groups, and that appreciable recovery means the reelection of Roosevelt. Therefore any brakes put on the administration program aids the insurgents. The reaction of the people should be strongly against political jockeying with relief.

The real issue on the relief bill we feel, is how the program is to be financed, whether through borrowed banker's credits and a consequent accumulation of billions in interest, or by new currency backed by a surplus of gold and the great potential wealth of the people.

Our attitude toward all the vast spending program is that the spending is all right, but the imposing of a debt of billions in pyramided interest upon future generations is an unfair plan of financing in the light of having billions in gold in the public vaults with no currency out against them. When you have plenty of GOLD it is permissable for you to spend, but in the name of common sense, why borrow banker's money to do it?

Black-Draught Brings Refreshing Relief of Constipation Troubles

Constipation produces many disagreeable sensations, several of which are mentioned by Mr. T. E. Stith, of Bonneville, Ind., who writes: "I have used Thedford's Black-Draught many years when needed for biliousness and other minor ills when a laxative was needed. I have a tight feeling in my chest when I get bilious. I get dizzy and feel very tired, just don't feel like doing my work. After taking Black-Draught, I feel much better. This is why I continue to use it when needed." . . . Thedford's Black-Draught is a good, purely vegetable laxative, obtainable for 25¢ a pack-age.

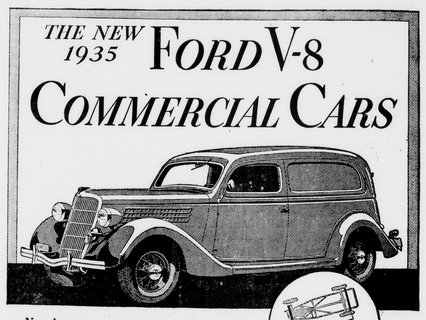
THE NEW 1935 FORD V-8 COMMERCIAL CARS



THE NEW full floating SPRINGBASE

New beauty . . . new full-floating springbase, brakes, clutch, crankcase ventilation and other engine, chassis and body features . . . plus the proved V-8 economy, dependability, speed.

TWO facts of first importance should be known about the new 1935 Ford V-8 commercial cars. First, these cars are built around the proved Ford V-8 engine. Second, their 1935 features assure economy and efficiency that set a new standard even for Ford.

The new Full-floating Springbase, explained above, increases front-end stability, gives entirely new riding ease —new protection for your load, less strain throughout the car, new comfort and handling-ease for the driver. In addition, the improved weight distribution produces more uniform tire wear, longer brake life, better braking.

New crankcase ventilation and copper-lead connecting rod bearings make the V-8 engine more dependable than ever. There are new rib-cooled brakes —new Centriforce clutch—stronger frame—easier steering—large, low-pressure tires—safety glass all around at no extra cost. Try one of these new jobs today.

And remember, the Ford Parts Exchange Plan permits you to turn in your present engine, after its normal life, for a block-tested, factory reconditioned engine. Cost—$49.50 F. O. B. Parts Branch. Other parts—carburetors, generators, etc.—also available.

Springs are set beyond both front and rear axles. Gives long springbase riding ease and stability, with handling ease of 112" wheelbase.

How your MONEY WORKS FOR YOU IN A *Checking Account*

When you put your money in a savings account you get interest on it. In a checking account you get service for it—and let the bank draw the interest. In return for this interest the bank gives you privileges worth far more to you than the interest itself.

When you maintain a balance commensurate with your use of your checking account privileges, the bank will be reimbursed for the expense of serving you. Otherwise, the bank may properly look to you to meet this expense.

Money in a checking account is an investment that pays you real dividends.

AGENT'S SERVICE: Its value is often overlooked by the policyholder because it has been rendered in too unobstrusive fashion

We see the work of many agent's and many of them give their assured, service that is literally beyond price.

There are a few who do not give value received.

The competent agent who has rendered a full measure of service—and has impressed that upon his assured—has little to fear from competitors who sell their wares on price, who dangle a prospective 'savin' of a few premium dollars before their prospect's eyes and carefully say nothing of the liabilities he will assume to get that "saving."
